

# Designed for Public Approval

Steel Chairs are designed and manufactured with one ideal prominently in mind—Public Endorsement! Their beauty of design attracts; their comfortable reception of the human body strikes instant patron approval. What greater appeal for theatre patronage can be conceived? . . . Many of the country's largest theatres and thousands of smaller ones, none the less progressive, have recognized this "sound investment" feature of Steel Chairs.

Left—View of Stadium Theatre, Los Angeles, with Model 6866 Steel Chairs. Right—Interior view of Fox Arlington Theatre, Santa Barbara, Calif., equipped with Model 6868 Steel Chairs.

A copy of this interesting booklet "Modern Theatre Seating" is available for asking either our distributor or you may write us direct.
