

THE AZTEC,
SAN ANTONIO,
TEXAS

This very efficient line-up includes two Simplex Projectors with Peerless Reflector Arcs

International Supplies ***A Lamp for Every Requirement***

It is the responsibility of this company to meet the needs of the exhibitors in every section of this country.

In one locality the ordinary arc is still used; in another the incandescent meets the need of the exhibitor; and now *the reflector lamp is forging ahead* very rapidly while the high intensity lamp is used in many of the largest theatres.

We have at least two models of each of these types and the exhibitor may therefore freely make a selection with complete confidence that the supply dealer is anxious to furnish only that which he feels is best adapted to the needs of a particular theatre or locality.
