

"Mankind was never so happily inspired as when it made a cathedral".

Robert Louis Stevenson

In those few and simple words Robert Louis Stevenson summed up the sublimity of man. To build, whether a glorious cathedral or a simple roof for shelter, is an expression of joy, an act of irrefutable fate, and a manifestation of man's noblest ambitions. To build means to change and to progress. On the top of a hill in the very heart of a city that is young and busy and exuberant and determined, the now completed Music Center of Los Angeles County is an affirmation that culture is essentially the inspired vitality of our every day existence. Our Music Center with The Dorothy Chandler Pavilion, The Mark Taper Forum and The Ahmanson Theatre being dedicated this week to the people of California, is a great monument of progress and change for the happiness of all. We at May Co. are proud of this fine achievement.

A salute to the Music Center of Los Angeles County
